

CURRICULUM VITAE

I. BASIC INFORMATION

Surname Marković (*ex. Nastovski*)
Name Tatjana
Affiliation Institute of Medicinal Plant Research "Dr Josif Pančić", Belgrade.
Address Svetozara Radića Street, no 7
11000 Belgrade, Republic of Serbia
Phone office +381/11 218 34 20
Phone mobile +381/64 867 47 50
Fax +381/11 30 31 649
e-mail add. tmarkovic@mobilja.rs
Web page <http://www.mobilja.rs>

II. ACADEMIC RECORDS

Professional experience

- 1997-1998.** Federal Ministry of Agriculture, Federal Institute for Plant and Animal Genetic Resources, Belgrade, Republic of Serbia.
- Since 1998.** Institute of Medicinal Plant Research "Dr J. Pančić", Belgrade, R. Serbia. Department for Research and Development in MAPs' Agriculture.

Progress in Higher Education & Professional Specialisation

- 30.01.1993.** Bachelor of Science in Agriculture (Crop Farming), Belgrade, awarded by the *University of Belgrade, Faculty of Agriculture*, Belgrade, Republic of Serbia.
- 09.12.1994.** Specialised Post-Graduate Degree in Natural Products, Paris, France, awarded by *International Centre for Advanced Mediterranean Agronomic Studies* (CIHEAM), Paris, France, upon recommendation of the director of *Mediterranean Agronomic Institute of Chania* (MAICh), Crete, Greece.

- 12.02.1997.** Master of Science in Natural Products, Paris, France, awarded by *International Centre for Advanced Mediterranean Agronomic Studies* (CIHEAM), Paris, France, upon recommendation of the director of *Mediterranean Agronomic Institute of Chania* (MAICH), Crete, Greece.
- 19.06.2006.** Ph.D. in Biotechnology, awarded by the *University of Belgrade, Faculty of Agriculture*, Belgrade, Republic of Serbia.

Progress in Research position

- 15.06.2000.** Research Associate
Institute of Medicinal Plant Research “Dr J. Pančić”, Belgrade, R. Serbia
- 31.05.2007.** Research Fellow
Institute of Medicinal Plant Research “Dr J. Pančić”, Belgrade, R. Serbia
- 27.06.2012.** Senior Research Fellow
Institute of Medicinal Plant Research “Dr J. Pančić”, Belgrade, R. Serbia

Current duties

- Since 2009.** Head of Department for R&D in MAPs’ Agriculture,
Institute of Medicinal Plant Research “Dr Josif Pančić”, Belgrade, Republic of Serbia.
- Since 2009.** Editor in Chief of the National Scientific Journal “Lekovite sirovine”, in edition of the
Institute of Medicinal Plant Research “Dr Josif Pančić”, Belgrade, Republic of Serbia.
- Since 2010.** Vice president of the Scientific Council - I mandate.
Institute for Medicinal Plant Research “dr Josif Pančić”, Belgrade, Republic of Serbia.
- Since 2014.** Member of the Governing board - I mandate.
Institute for Medicinal Plant Research “dr Josif Pančić”, Belgrade, Republic of Serbia.

Main research areas

- Medicinal and aromatic plants cultivation (organic and conventional).
- Secondary metabolites isolation, characterisation and application.

Key research qualifications

Knowledge and experience in following research areas:

- Isolation and GC/MS characterisation of MAP secondary metabolites (essential oils);
- Investigation on biological activities of essential oils and their safe application;
- Introduction into culture and cultivation of mountainous maps;
- Organic cultivation of MAPs;
- Computer applications (Word, Excel, Power Point, Photoshop, Amdis)

Current research interests

- Essential oil isolation and GC/MS characterisation;
- Investigation on biological activities of essential oils and their safe application;
- Long-scale cultivation of Yellow gentian (*Gentiana lutea*).

Current engagement in national scientific projects

2011 – 2015. Senior Research Fellow

Project III 46008, financed by Ministry of Education & Science of Republic of Serbia,
Program: Integral Research

Project title: *“Development of integrated management system for harmful organisms in order to overcome resistance and improve food quality and safety”*

Project leader: Obradović A.

2011 – 2015. Senior Research Fellow

Project OI 173032, financed by Ministry of Education & Science of Republic of Serbia, Program: Basic Research

Project title: *“Characterization and application of fungal metabolites, and identification of potentially new biofungicides”*

Project leader: Vukojević J.

Since 2012. Senior Research Fellow

Project IP-31, financed by the Institute for Medicinal Plan Research “Dr. J. Pančić”, Belgrade, Serbia. Program: Internal R&D project

Project title: *“Production and disposal of the compost from residual MAP parts, by-products of cultivation and processing of medicinal herbs”*

Project leader: Filipović V.

Since 2014. Senior Research Fellow

Project IP-32, financed by the Institute for Medicinal Plan Research “Dr. J. Pančić”, Belgrade, Serbia. Program: Internal R&D project

Project title: *“Investigation on causes of German chamomile cv. Banatska flowers deformation (Chamomillae flos), cultivated in Institute production fields”*

Project leader: Radanović D.

Engagements in already completed Scientific Project (last ten year period)

2002 – 2005. Research Associate

Project BTR 5020519A, financed by Ministry of Science and Technology of Republic of Serbia, Program: Technology Development

Project title: *“Control of bioagents in medicinal plants”*

Project leader: Kostić M.

2002 – 2005. Research Associate

Project BTN 2390724B, financed by Ministry of Science and Technology of Republic of Serbia, Program: National program of Biotechnology and Agroindustry

Project title: *“Standardized dry extract of St. John’s Wort with an increased hypericin content”*

Project leader: Radanović D.

2003 – 2005. Project leader

Project IP-02.02.21, financed by the Institute for Medicinal Plan Research “Dr. J. Pančić”, Belgrade, Serbia. Program: Internal R&D project

Project title: *“Testing of growing possibilities and introduction into culture Tanacetum parthenium and Tanacetum larvatum, as biological sources of parthenolide for production of phytopreparation that belongs to the group of antimigrénics”*.

- 2005 – 2007.** Leader of Serbian Research Team
 International cooperation project financed by Ministry of Science and Technology of Republic of Serbia. Program: Bilateral science and technology cooperation between Serbia and Greece.
 Project title: "*Comparative investigation of methods and techniques of organic MAP production in Greece and Serbia, aim to optimisation of biologicaly active compounds and/or essential oils*"
- 2005 – 2008.** Research Fellow
 Project BTN 321003B, financed by Ministry of Science and Technology of Republic of Serbia, Program: National program of Biotechnology and Agroindustry.
 Project title: "*Standardized liquid extract of cultivated Yellow Gentian root (Extractum Gentianae) and Arnica flower (Extractum Arnicae) for application in pharmaceutical, food and cosmetic industries*"
 Project leader: Radanović D.
- 2007 – 2009.** Project leader
 Project IP-02.02.15, financed by the Institute for Medicinal Plan Research "Dr. J. Pančić", Belgrade, R. of Serbia. Program: Internal R&D project.
 Project title: "*Testing of possibilities to grow some Sideritis species in Serbia*"
- 2008 – 2011.** Research Fellow
 Project TR 20108, financed by Ministry of Science and Technology of Republic of Serbia. Program: Technology Development.
 Project title: "*Wild and cultivated herbs of Serban biozones in terms of sustainable development of mountainous regions - Part I*"
 Project leader: Menković N.
- 2010 – 2012.** Senior Research Fellow
 SEERA.NET Plus Joint European Research Project (ERA-135), financed by European Commission and the contributions of participating countries (carriers of research and development), in the frame of Joint European Research Project (JERP).
 Project title: "*Conservation and Sustainable Exploitation of indigenous Medicinal and Aromatic plants traditionally used in the SEE, WB countries. A model approach for Sideritis spp. (Mountain tea)*"
 Project leader: Chatzopoulou P.

III. ADDITIONAL ACADEMIC RECORDS

Language skills

- Fluent in English and Greek;
- Basic in German, Portuguese and Spanish.

Membership in scientific and professional associations

- Since 2000.** AMAPSEEC (Association for Aromatic and Medicinal Plants of South-East European Countries)
- Since 2012.** ESCORENA Network - MAP Working group (European System of Cooperative Research Network in Agriculture) - the FAO Regional Office for Europe.
- 16-18.12.2004** ECP/GR, MAP Working Group, Strumica, F.Y.R.O.M. (second meeting)
- 15.12.2004.** SEED Net, MAP Working Group, Strumica, F.Y.R.O.M. (first meeting)

Other professional engagements

- Since 2003.** R&D for the Production Sector – MAP Agriculture,
Institute for Medicinal Plant Research “Dr Josif Pančić”, Belgrade, R.Serbia.
- 2007 - 2012.** Participant in the project
Researcher upon agreement between Institute for Medicinal Plant Research, National Park “Tara” and Institute for Nature Protection od Serbia:
Project title: “*Long-scale cultivation and reintroduction of Yellow Gentian (G. lutea) in Serbia*”
- 2010 - 2011.** Participant in the project
Project “STAR” no. AAP047, financed by the Ministry of Agriculture of Republic of Serbia and the World Bank.
Project title: “Possibilities of integrated medicinal and aromatic plants production in the region of Stara mountain and other rural, mountainous biozones of Serbia aiming to diversification of rural households”
Project leader: Kostić M.

IV. SCIENTIFIC PUBLICATIONS (last 10 year period)

International Scientific Journals (SCI list)

- Radanović D., Nastovski T., Pljevljakušić D. (2005): “Comparative investigation of *Hypericum perforatum* L. populations in Serbia”, *Acta fytotechnica et zootechnica*, vol. 8 (4): 107-112.
- Ristić M., Krivokuća-Đokić D., Radanović D., Nastovski T. (2007): Essential oil of *Arnica montana* and *Arnica chamissonis*, *Hemijačka industrija*, vol. 61(5): 272-277.
- Dajic Stevanovic Z., Nastovski T., Ristic M., Radanovic D. (2009): “Variability of Essential Oil Composition of Cultivated Feverfew (*Tanacetum parthenium* (L.) Schultz Bip.) Populations”, *Journal of Essential Oil Research*, vol. 21, July/August: 292-294.
- Chatzopoulou P., Marković T., Radanovic D., Koutsos T., Katsiotis S. (2009): “Hypericin content and essential oil composition of a Serbian *H. perforatum* local population cultivated in different ecological conditions”, *Journal of Essential Oil Bearing Plants*, vol. 12, (6): 666-673.
- Marković T., Chatzopoulou P., Šiljegović J., Nikolić M., Glamočlija J., Ćirić A., Soković M (2011): “Chemical analysis and antimicrobial activities of the essential oils of *Satureja thymbra* L. and *Thymbra spicata* L. and their main components”, *Archives of Biological Sciences*, vol. 63(2):457-64.
- Todorović G., Živanović T., Jevđović R., Kostić M., Đorđević R., Zečević B., Marković T. (2011): “The mode of inheritance of grain yield in two single-cross maize (*Zea mays* L.) hybrids”, *Romanian Agricultural Research*, vol. 28: 71-77.
- Nikolić M., Marković T., Marković D., Perić T., Glamočlija J., Stojković D., Soković M. (2012): “Screening of antimicrobial and antioxidant activity of commercial *Melaleuca alternifolia* (tea tree) essential oils”, *Journal of Medicinal Plants Research*, vol. 6 (22): 3852-3858.
- Nikolić M., Marković T., Mojović M., Pejin B., Savić A., Perić T., Marković D., Stević T., Soković M. (2013): “Chemical composition and biological activity of *Gaultheria procumbens* L. essential oil”, *Industrial Crops and Products*, vol. 49:561-567.
- Nikolić M., Glamočlija J., Ferreira C.F.R.I., Calhelha C.R., Fernandes A., Marković T., Marković D., Giweli A., Soković M. (2014): “Chemical composition, antimicrobial, antioxidant and antitumoractivity of *Thymus serpyllum* L., *Thymus algeriensis* Boiss. & Reut and *Thymus vulgaris* L. essential oils”, *Industrial Crops and Products*, vol. 53: 183-190.

- Radanović D., Marković T., Aiello N., Fusani P. (2014) : “Cultivation trials on *Gentiana lutea* L. in Southern and South-eastern Europe”, *Journal of Applied Research on Medicinal and Aromatic Plants*, vol.1(4):113-122. [doi:10.1016/j.jarmap.2014.10.004](https://doi.org/10.1016/j.jarmap.2014.10.004)
- Nikolić M., Jovanović K., Marković T., Marković D., Gligorijević N., Radulović S., Sokovića M. (2014): “Study on chemical composition, antimicrobial and cytotoxic properties of five *Lamiaceae* essential oils”, *Industrial Crops and Products*, vol 61:225-232.
- Kumar V., Dey A., HadimaniM.B., Marković T., Emerald M. (2015): “Chemistry and pharmacology of *Withania somnifera*: An update”. *Tang (Humanitas medicine)*, vol. 5(1): 1-13.
- Nikolić M., Stojković D., Glamočlija J., Ćirić A., Marković T., Smiljković M., Soković M. (2015): “Could essential oils of green and black pepper be used as food preservatives?”, *Journal of Food Science and Technology, Mysore*. [doi 10.1007/s13197-015-1792-5](https://doi.org/10.1007/s13197-015-1792-5)
- Duduk N., Marković T., Vasić M., Duduk B., Vico I., Obradović A. (2015): “Antifungal activity of three essential oils against *Colletotrichum acutatum*, the causal agent of strawberry anthracnose”, *Journal of Essential oil Bearing Plants*, doi.org/10.1080/0972060X.2015.1004120
- Nikolić M., Marković T., Glamočlija J., Perić T., Marković D., Ćirić A., Soković M. (2015): “Sensitivity of clinical isolates of *Candida* to essential oils from Burseraceae family”, *EXCLI Journal (accepted 13.12.2014)*
- Filipović V., Ugrenović V., Radanović D., Marković T., Popović V., Bojović R., Mickovski Stefanović V. (2015): “Productivity and tubers quality of *Helianthus tuberosus* L. cultivated on different soil types in Serbia”, *Romanian Biotechnological Letters*, (accepted in 2015)

International Conferences (full papers in proceedings)

Radanović D. and Nastovski T.: "Medicinal, aromatic plants and wild fruits in organic production", In: Babović J and Lazic B "Organic Farming", Vol. II, published by the Research Institute of Field and Vegetable Crops, Novi Sad, 2008. (ISBN 978-86-80417-15-8)

Technical solutions and patents (verified at national level)

a) New products (introduced in production)

Authors: Samardžić Z., Bigović D., Marković T., Radanović D. (2008):

Title: "Standardized ethanolic extract of the roots of cultivated Yellow Gentian 1: 4."

Result of the project BTN 321003B: „Standardizovani tečni ekstrakt korena gajene lincure (*Exrtactum Gentianae*) i cveta gajene arnike (*Extractum Arnicae*) za primenu u farmaceutskoj, prehrabenoj i kozmetičkoj industriji“.

Project period: 2005-2008.

Project leader: Radanović D.

Authors: Samardžić Z., Bigović D., Marković T., Radanović D. (2008):

Title: „Standardized ethanolic extract of cultivated Arnica flowers 1 : 2“.

Result of the project BTN 321003B: „Standardizovani tečni ekstrakt korena gajene lincure (*Exrtactum Gentianae*) i cveta gajene arnike (*Extractum Arnicae*) za primenu u farmaceutskoj, prehrabenoj i kozmetičkoj industriji“

Project period: 2005-2008.

Project leader: Radanović D.

b) Improved existing technology (introduced in production)

Authors: Kostić M., Nastovski T. (2004):

Title: „Significantly improved quality of *Tanacetum parthenium* (L.) Schultz-Bip (Feverfew) with increased parthenolide content and improved protection within the cultivation technology of this plant species“,

Result of the project BTR.5.02.0519A: "Control of bioagents in medicinal plants".

Project period: 2002-2005.

Project leader: Kostić M.

Authors: Radanović D., Marković T., Spasojević B. (2007):

Title: „Non-hormonal procedure of production of Yellow Gentian (*Gentiana lutea* L.) nursery plants in open seedbeds“.

Result of the project BTN 321003B: "Standardized liquid extracts of cultivated gentian root (*Extractum Gentianae*) and arnica flowers (*Extractum Arnicae*) for use in the pharmaceutical, food and cosmetic industries"

Project period: 2002-2005.

Project leader: Radanović D.

Authors: Marković T., Radanović D. (2008):

Title: „Cultivation technology of *Arnica chamissonis* Less. var. *foliosa* (Nutt.) Maguire in mountainous conditions“

Result of the project BTN 321003B: "Standardized liquid extracts of cultivated gentian root (*Extractum Gentianae*) and arnica flowers (*Extractum Arnicae*) for use in the pharmaceutical, food and cosmetic industries"

Project period: 2005-2008.

Project leader: Radanović D.

Authors: Marković T., Radanović D., Pljevljakušić D., Ristić M. (2010):

Title: "Technology of production of medicinal plant raw material - Arnica flowers (*Arnica montana* L.), in the mountainous region of Serbia, intended for use in the pharmaceutical and food industry."

Result of the project TR 20108: "Wild and cultivated herbs in biozones of Serbia for the sustainable development of mountainous regions. Part I"

Project period: 2008-2010.

Project leader: Menković N.

Authors: Radanović D., Marković T., Janković T., Menković N. (2010):
